
DIMENSIONAL REFERENCE DRAWING

Drawing is diagrammatic - use table values below.

Additional sheet dimensions: AA = minimum clearance required to disassemble pump | E = mounting-foot half-width | H = mounting-hole diameter
All dimensions are in inches. Suction and discharge values are nominal connection sizes. Weight is in pounds.

AA	CP	A	D	E	F	F1	H	M	O	R	U	Keyway	Suction	Discharge	Weight
31.88	64.00	11.50	9.75	4.50	35.50	-	0.88	32.75	16.69	15.00	1.88	.50 x .25	6.00	5.00	460

2L10 INSTALLATION REFERENCE

Overall centerline length (CP): 64.00 in

Minimum disassembly clearance (AA): 31.88 in

Suction connection: 6.00 in

Discharge connection: 5.00 in

Drive-shaft keyway: .50 x .25 in

Approximate pump weight: 460 lb

Source basis: supplied L & J Frame Dimension Sheet, dated February 15, 1996. Values reproduced for model-specific installation reference.
